The ADM® Modular Brace System Clinic Accessories Overview

The ADM® Modular Brace System provides the broadest range of modern clubfoot bracing products. The braces and AFOs deliver outstanding clinical outcomes for patients. The suite of Clinic Accessory products enable clinics to operate at maximum efficiency saving valuable clinic and patient time and improving the patient experience.

Indications:

- Clinic Accessory products are for all clubfoot clinics regularly treating clubfoot patients and fitting ADM® Modular Brace System products.

Advantages and Benefits:

- Measure, configure and fit braces in just a few minutes.
- Easily store and transport to the treatment room everything required for the clubfoot brace fitting clinic.
- Facilitates correct sizing and product selection.
- Facilitates efficient stock management and reordering

The ADM® Boots and Bar system is easy to fit, intuitive to use and quick to configure. The Clinic Accessory products will facilitate fast and professional clubfoot brace fitting and maximise use of valuable clinic resources
